- Line length preferences
- Colors

Subtitle Editor Window

- ENTER commits timing for that line of subtitles.
- NUMPAD 5 plays current audio.
- SHIFT + ENTER creates code for 2-line caption (\N)
- Move remaining text to new caption: Right-Click > Split at Cursor (estimate Times)

Editing Subtitles:

1. “Video\Open Video...” loads source video.
2. “File\Open Subtitle” to import subtitle/txt file.
3. Text Import Options: use if relevant, or leave as is. Click “OK” and proceed.
4. Text Grid loads your subtitle/text file.
5. Select first row of Text Grid, edit in the Subtitle Editor window.
6. Edit grammar and line length.
7. Adjust timing by moving blue and red lines in Audio Preview window.
8. Press ENTER to set subtitle timing and load next subtitle from Text Grid.

Audio Preview Window

- Drag the **RED** and **BLUE** lines to set audio time for subtitles.
- **RED line = Beginning**
- **BLUE line = Ending**
- **SPACEBAR** plays the audio between red and blue lines.
